01

What is Life cover?

What's the benefit?

Life cover (also known as Life insurance) helps to protect the financial needs of your business if an insured person dies, providing security for a wide range of financial commitments.

What does it do?

It pays a lump sum payable to the policy owner, ensuring there's funds available to help repay business debts, protect the business against the loss of a key person, or allow other shareholders to buy out a share of the business.

When does it pay?

Either when the insured person has been diagnosed as terminally ill and given less than 12-months to live or when they die.

Make sure it's right for your business.

Life cover can help:

Protect any shareholders.

Sole business owners.

Pay off any business debts.

02

Key facts you should know.

Available on its own or can be linked with other cover types.

No cap on the amount of cover subject to the checks made on the health and financial information you provide.

You can apply aged 16-75.

You'll be asked to supply personal details about you; like health and finances.

Choose how you want to pay; a set price for a fixed period-of-time or payments that increase each year.

You are insured for life – there's no expiry age.

03 Here's a snapshot of what's included.

- ✓ **Receiving a terminal diagnosis** – You may choose to receive payment for the total amount insured if the insured person has been diagnosed with a terminal illness and been given less than 12-months to live.
- ✓ **A reduction in your life expectancy** – Sometimes a diagnosis, while not terminal will reduce your life expectancy. If the insured person is diagnosed with one of the conditions named in the policy, you may receive an advance payment of 30% of your total amount insured.
- ✓ **Increase your cover without additional medical checks** – There are lots of business milestones that could prompt you to increase your cover. Examples are if a key person increases in value to the business, or if your financial interest in the business or loan guarantee increases. As your business changes, so can your cover. At times like these, you might be able to increase your cover without providing any additional medical information.
- ✓ **Financial planning benefit** – If you receive a large lump sum payment it can be overwhelming to plan how to use these funds. In situations like this, working with a financial advice provider can be invaluable. If you were to receive a payment of \$100,000 or more, we will reimburse the costs up to \$2,500, for a fully documented financial plan prepared by a Financial Adviser who can help plan your financial future.

04 Consider adding options to suit your business needs.

Here are some of the options you can add-on to your Life cover that may require payment of an additional premium.

Inflation protection.

To help the amount of your Life cover keep up with inflation, you can choose to have your sum insured increase by at least 2% each year without providing any medical information.

Increasing business cover.

While your cover includes an inbuilt benefit to provide some coverage for an increase in cover, this option allows you to increase your insurance by a higher amount as your business changes. You can do this before the age of 60 without needing to provide any medical information where the financial evidence supports it.

Link to other cover types.

Life cover can be taken out on its own, or you can choose to have other covers, like Trauma or Total and permanent disability linked to provide an advanced payment, that will be deducted from your Life cover.
